## Latest Quotations in the Portland Markets

Complete Market Reports Corrected Each Day Giving the Wholesale Prices of Commodities, Farm Produce and Vegetables.

PORTLAND, July 17.—Green fruits are still the leading feature of Front-street trade, and the busy season will continue for some weeks to come. Today's arrivals, besides the usual express items, consisted of two cars of delicious fruits. From Southern Oregon there were some peaches and plums, and from the Yakima district of Washington some fair-looking apricots. The Dalles sent down quite a lot of hothouse tomatoes that were eagerly picked up at top prices. Cucumbers were still quite scarce, and the arrivals this morning were not of the best.

A lot of early celery from Washington was shown, and is good for the time of year.

Bartlett pears from California made their appearance and were quoted at \$2.50 a box.

## Eggs and Butter.

There continues to be a very good market for all concerned, in the egg market, prices being firm at 22c, which is considered reasonable to buyer and satisfactory to seller. In some quarters a half cent is named on top of the generally accepted figure. Ranch eggs are not coming in sufficiently to meet requirements, but the light receipts are being augmented by the Eastern goods, that sell side by side with the local eggs. No Portland storage eggs are being withdrawn, as far as could be learned.

Butter is firmer, though there are still very heavy receipts from usual sources of supply, and some from quarters new to this trade previous to this year.
